## **BIT GREEN:**

**BIT GREEN** is a student forum functional within the engineering college of the Bearys group. The BIT GREEN club undertakes several activities that seek to increase the awareness of societal towards environmental concerns. One of the most important activities undertaken by the club is the planting of saplings by each and every student who first enter the portals of the college. Not only does this help increase green cover, but it also helps the student bond with nature and the institution.

# AN ARCH TYPE STATEWIDE INITIATIVE TO BECOME A NATIONWIDE CAMPAIGN

### CLEAN CITY - GREEN CITY vis-à-vis CLEAN INDIA - GREEN INDIA:

This is a socio-environmental initiative from the Bearys Group in collaboration with IGBC. Today's urban habitations have become almost inhospitable due to a wide variety of problems – most of them originating from the ecosystem. With very little initiative forthcoming from desired quarters, Bearys Group has initiated the concept of CLEAN CITY-GREEN CITY which is a collective effort, intense and holistic in its approach and a responsibility equally shared by all.

To start with, extensive greening, tree planting, and beautification of the neighborhood of all Bearys Group projects have become standard practice. In its very first project His Grace, a residential development in Mangalore, the Group undertook 1.6 km of road widening, drainage, bitumen laying, tree planting, and street lighting. Similarly, a 2 km stretch of road formation and tree planting was carried out near its project Bearys Lakeside Habitat and another 5 kms of greening the median, tree planting, beautification, and maintenance has been taken up by the group at Bearys Global Research Triangle project location to name just a few. This has also been widely implemented in the vicinity of its various projects and in the neighborhood and approach to all its institutions.

Mangaluru, Karnataka-574199

The Bearys Group larger goal is to extend this initiative state-wide and further take it to the national level and has already submitted its proposal to the Prime Minister as part of Swachh Bharath.

The intent and mission of this initiative is aptly captured in the logo itself.

## Fig. 46 Signboard Logo along the Roads

The leaf or petal-like forms coming together represent a butterfly in flight – a joyous symbol of a perfectly balanced ecosystem where the natural and the man-made coexist harmoniously. The four fluid forms also represent the collaborative nature of this initiative whose success lies in the various stakeholders working hand in hand towards a common goal. The colours Blue, Green, and Orange symbolize all the natural elements – air, water, sky, earth and trees, that have to be cared for and made a part of the urban landscape in order to create cleaner, greener and healthier cities.

Under the **CLEAN CITY – GREEN CITY** initiative, various monthly awareness activities & cleaning programmes are being carried out at Mangalore and Kodi, Kundapur, Udupi district.

## CLEAN BEACH - ULLALA - 17-09-22

## **BITS** Celebrate World Green Building Week & 'International Coastal Clean-up Day' with Beach Clean-up and other initiatives

In keeping with its sustainable green vision of contributing significantly to a progressive, peaceful greener world and creating leaders in every field, the above Science & Technology institutions of the Bearys Group have introduced a futuristic concept of learning where nature and nurture come together to inspire young minds to become proponents of sustainable architecture and environment conscious leaders of the world.

The program was inaugurated by Mr. Abubaker Siddique Beary, Director Bearys Group. The Principal of BIT, Heads of various departments, faculty, non-teaching staff along with students of these educational Institutions joined hands to clean the Ullala beach.

The goal of beach clean-up initiative was to raise awareness about respecting nature and maintaining hygiene, more especially with focus on marine pollution and the need for putting

an end to littering beaches with garbage and plastic which is destroying & depleting marine life in the oceans. The students displayed banners on environmental cleanliness and createdpublic awareness with slogans at Ullala Beach. Hand gloves, Sanitisers and cleaning bags were distributed to all the participants.

The students of BIT also planted tree saplings in line with the theme of the event. In addition, the students also made use of art to demonstrate and create awareness about the environment by participating in a Green Sketching event and presented their artwork.

The students of the Department of Mechanical Engineering of BIT also conducted an awareness camp on 'Water Conservation and Waste Management' along with a quiz competition on the same theme at the Government High School in Pavoor.
