

4.6.2. Publication of technical magazines, newsletters, etc. (5)

(The Department shall list the publications mentioned earlier along with the names of the editors, publishers, etc.)

Department Newsletter is published one in each semester highlighting achievements of students and faculty of Computer science and Engineering Department.

College vision

- To be a premier institution in engineering education and research, fostering innovation, societal responsibility, and ethical leadership for a sustainable future.

College Mission

- Promote innovation and cutting-edge research to develop sustainable engineering solutions for real-world and global challenges.
- Cultivate ethical leadership and technical excellence among students to become responsible and leading engineering professionals.

Department vision

- To be a center of excellence in computer science and engineering education and research, fostering innovation, ethical computing, and societal impact for a sustainable digital future.

Department Mission

- Empower students with strong computing fundamentals, technical skills, and a problem-solving mindset to address complex computing challenges with confidence and responsibility.
- Promote research and innovation in emerging areas of computer science, encouraging ethical practices and responsible technology use for sustainable societal development.
